PRODUCT DESCRIPTION

Starting as low as \$125/foot [Fully Installed](#), adding a soft-curved top to an Orleans is a great way to add eye-catching style to an otherwise very basic "good neighbour fence".

"Convex" refers to the shape of the curve on top of the fence. If the the arc is higher in the center than at the posts it's convex. If the arc is lower in the center than at the posts it's concave.

The photo above shows an example with 3" board spacing, made of cedar lumber with amberwood stain.
