PRODUCT DESCRIPTION

Starting as low as \$185/foot [Fully Installed](#), the Hollybrook features a scalloped topper over horizontal privacy boards.

"Concave" refers to the shape of the curve on top of the fence. If the the arc is higher in the center than at the posts it's convex. If the arc is lower in the center than at the posts it's concave.

The example shows a Hollybrook with a concave scalloped picket topper.

Note: dog owners should be aware that gaps can form under horizontal fences if the grade of the yard isn't perfectly level.
