PRODUCT DESCRIPTION

Estate Gates are stately and inviting yet secure. We offer options for gate operators, automated telephone systems, custom sized pillar posts, specialty hardware, and our "wood over steel" or "wood over aluminum" framing techniques.

Because of the large size, these gates typically include a cane bolt bracket for each gate leaf.

We offer a design service for special applications that goes well beyond our typical free estimate. We'll work closely with you to get both the numbers and the product right for your particular project, wherever and whatever it may be. Please call [613-736-1122](tel:613-736-1122) for more details.
